Page 1 of 3
Form v2.0

UBC Digital Payment Program (DPP) provides participating UBC departments with secure, real-time authorization and processing of online payments through credit card rails (including credit, prepaid credit and signature debit). As with other credit card payment processes on campus, DPP is subject to UBC Payment Card Industry Data Security Standard (PCI DSS) compliance, with which stores must be compliant at all times.

UBC Entities Only:

DPP supports digital payment processing behalf of UBC entities only. We do not support payment processing on behalf of a subsidiaries or related entities.

Credit Card Security:

1. DPP merchants are not permitted to obtain, collect or store sensitive credit card information.
2. DPP merchants are not permitted to process payments on the behalf of their customer or the cardholder.
3. Please refer to the UBC PCI DSS compliance and compliancy requirements available via the links below. (Please note that DPP Ecommerce Credit Card Processing Requirements will soon be published).

Privacy Law Compliance:

"To comply with British Columbia's Freedom of Information and Protection of Privacy Act (FIPPA) and UBC Information Security Standards, new Web Service merchant requests have to complete Privacy Information Assessment (PIA) review. Existing web forms needing changes on the manner/process of collecting user information on their web forms may also require PIA review.

Details of the PIA process can be found in the link below:"
